

**Whole year** We arranged volunteers from different organizations to visit nursing homes in various regions of the country. They led festive activities, physical exercises, and other recreational activities. Throughout the year, a total of 312 volunteers participated in this program, with 13 partners collaborating, and the total number of service days amounted to 15.

**25-26 Dec** We organized a follow-up cataract outreach program in Lianzhou. A total of 9 people participated, with assistance from local younger villagers in contacting the villagers who had undergone surgery. We were able to follow up with 30 villagers who had already undergone surgery and conducted check-ups on over 50 individuals. Out of the check-ups, 10 individuals were identified as needing cataract surgery and their names were recorded for future procedures.

**9 Dec** We organized a medical outreach program at a factory in Huizhou. Five healthcare professionals participated, including one dentist, one dental nurse, one general nurse, and two traditional Chinese medicine practitioners.

**11-13 Nov** We arranged for a team from EMAS Canada to conduct medical outreach programs in Dongguan and Qingyuan.

14-21 Oct

We held a "Poverty Alleviation and Vision Restoration" event in Lianzhou, Qingyuan. Seven volunteers participated and performed cataract surgeries for 111 residents from locations such as Bao'an and Yao'an.

8-9 Sep

We conducted a medical outreach program at Dongguan Dingsheng Furniture Factory, providing general medical consultations, traditional Chinese medicine services, and pain relief treatments. The team consisted of five doctors, three nurses, and four volunteers. Over the course of two days, approximately 160 individuals received medical services.

4 Aug

We organized a trip to Heshui to provide palliative care and pain relief consultations.

20-26 Jul

We collaborated with the Macau Hope Clinic in organizing the "Kangquan Medical Cooperation and Care Charity Outreach" event in Dabu County, Meizhou. A total of 26 individuals participated in the service. The service included general medical consultations for 444 people, ophthalmology consultations for 140 people, and dental consultations for 52 people. Simultaneously, another team of volunteers was arranged to conduct a medical outreach program in Qingyuan, serving over 700 individuals.

10 Jun

We conducted a follow-up visit to the school children in Qingcheng District, Qingyuan City, to provide eye examinations and distribute properly fitted eyeglasses. Five volunteers participated in this activity.

29 Apr – 1 May

We organized a medical outreach service in Yingde, with a total of 29 volunteers participating, including 10 healthcare professionals from the Baptist Hospital. During this event, we provided medical consultations to 275 individuals.

6-9 Apr

We conducted eye examinations for children aged 3-6 in the Qingcheng District of Qingyuan City and provided pain management consultations in the Qingxin District. A total of 20 individuals participated, including doctors, nurses, optometrists, and engineers. During the outreach, we provided services to 82 children, 1 teenager, and 23 adults who received treatment.

26 Feb – 1 Mar Free pain management consultation services was held in the Heyuan, Tianyuan, and Heshui regions. The participants included three pain specialists, two dentists, and one general practitioner, making a total of 22 individuals. We provided services to 630 individuals during the outreach.
